KISA TANITIM

SHORT INTRODUCTION

Alisra Otomotiv Talaşlı İmalat İth. İhr. San. Ve Tic. Ltd. Şti. 1989 yılında 50 metrekare alan ve 1 mekanik torna tezgahı ile üretime başlayarak o yılların zor şartlarında üretimde süreklilik ve kaliteden ödün vermeden hedeflenen yolda emin adımlarla yürümeyi ilke edindi.

Son gelinen noktada 1000 metrekare alanda çeşitli CNC Torna Tezgahları, Otomatik ve Mekanik Torna Tezgahları, Kollu Robot ve üretim için gerekli tüm ekipmanlarla birlikte alanında uzman personellerle çeşitli alanlarda istihdam ve kariyer gelişimlerine imkan sağlayarak faaliyetlerine devam etmektedir.

Alisra Automotive Machining Import. Export. Industry and Trade Co. Ltd. Co. started production in 1989 in a 50 square meter area and a mechanical lathe, adopting the principle of taking the desired path with sure steps without compromising on the continuity and quality of production under the difficult conditions of those years.

To date, the company continues its activities by providing employment and career development opportunities in various fields with professional personnel in a 1000 square meter area with various CNC lathes, automatic and mechanical lathes, arm robots and all equipment necessary for production.

MİSYON

MISSION

Çevreye ve insana duyarlı bir işletme modeli olarak, kaliteli - cazip ürün elde edilip süreklilik sağlanarak, geniş ve çeşitli makine kapasitesiyle sanayinin her dalında üretim yapmakta, yurt içi ve yurt dışındaki müşterilere istenilen üründe tedarik imkanı sağlanmaktadır.

As a business model that is sensitive to the environment and people, we produce quality and attractive products and ensures continuity, and produces in every branch of the industry with its wide and diverse machine capacity, and provides the opportunity to supply the desired product to domestic and foreign customers.

VİZYON

VISION

Endüstri 4.0 konseptini benimseyerek; verimlilik, otomasyon, nesnelerin interneti, artırılmış gerçeklik, katmanlı üretim, kalite ve dijitalizasyonu yükseltmek için, endüstriyel üretimi Ar-Ge çalışmalarıyla profesyonelleştirmektedir.

By adopting the Industry 4.0 concept; to professionalize industrial production with R&D studies in order to increase efficiency, automation, internet of things, augmented reality, layered production, quality and digitalization.

ÜRÜN GRUPLARI

PRODUCT GROUPS

ÜRÜNLER

- Tarım ilaçlama makineleri yedek parçası
- Otomotiv fren kaliperleri yedek parçası
- Talaşlı imalatta fason yedek parça
- CNC otomat revolver fason parçası
- Yağmurlama ek metal yedek parçası
- Siparişe özel yedek parça

CNC TURNING SERVICES FOR BRANCHES

- Agricultural and Construction Machinery
- Automotive Industry
- Crane and Lifting Technology
- Mechanical and Plant Engineering
- Logistics and Warehouse Technology
- And many more

MALZEMELER

- Çelik
- Krom
- Sarı
- Alüminyum
- Derin

MATERIALS

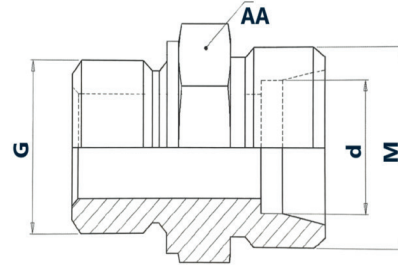

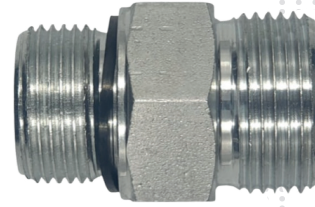

- Carbon Steels
- Tempered Steels
- Case-hardening Steels
- Rust and Acid Resistant Steels
- Free Cutting Steels
- Aluminium
- Bronze
- Brass
- PVC, PE, PP, POM
- PA, PTFE
